

➤ Technical Seminar

The Future of Electric Vehicle Charging and Solutions for Coming Needs

In partnership with **VolkerSmart Technologies**

19 May 2022 | 10:00 - 16:00

Book your place now ➤

The Future of Electric Vehicle Charging and Solutions for Coming Needs

The unmissable event on electric vehicle charging for highways and transportation professionals. Broaden your knowledge, be inspired and informed, and get up to speed with issues that face your business.

This seminar is THE CPD event for you.

www.ciht.org.uk/may-seminars/ >

Why you cannot miss out

- » **Develop** your knowledge on the topic of EV charging points infrastructure.
- » **Discover** best practice to use in your role, while helping shape the future of the transportation industry.
- » **Engage** with leading experts and get your questions answered during Q&A sessions and network if you attend in-person.

Tickets are available for in-person or virtual attendance.

Networking Sessions

Dedicated networking sessions for those attending in person.

Workshops

In-person attendees of this event will be able to take part in interactive workshops and get their voices heard on this important topic.

Content Sessions

Discover solutions and explore the work that must be done to develop EV charging infrastructure that works for all road users.
